INTRODUCTORY NOTE

The Compilation of Selected Aviation Laws is a valuable resource for Members of Congress, congressional staff, and public citizens who are interested in learning more about the laws governing civil aviation, including safety, infrastructure, labor and international aviation issues. Since the compilation was last published in 2008, Congress has enacted many critical aviation laws, including the FAA Modernization and Reform Act of 2012 (FAA Reform Act), the Airline Safety and Federal Aviation Administration Extension Act of 2010, and the European Union Emissions Trading Scheme Prohibition Act of 2011. It is my desire that this compilation will serve as an indispensable tool in all of its many applications.

The compilation includes the laws within the jurisdiction of the Subcommittee on Aviation, which covers all aspects of civil aviation. Specifically, the compilation includes laws governing aviation safety, airport improvement, Federal Aviation Administration operations, the National Transportation Safety Board, aviation security, essential air service, U.S. commercial aviation, general aviation, war risk insurance, international aviation, and commercial space transportation. In addition, as an aid to those using this compilation, it includes an index of selected subjects that will help interested persons locate the provisions of law that are of interest to them.

The Committee on Transportation and Infrastructure is pleased to release this compilation with the help of Legal Content Incorporated, which produced and published this resource. I would also like to recognize the valuable assistance of the Committee staff in preparing this compilation, including, Tracy Mosebey, Holly Woodruff Lyons, Giles Giovinazzi, Simone Perez and Alex Burkett. I would also like to thank Curt Haensel, Rosemary Gallagher, and Tom Dillon in the Office of Legislative Counsel for their assistance.

Bill Shuster
Chairman
Committee on Transportation
and Infrastructure
